Food (also organic)

Shelve your warehouse and optimise your business

Seize the opportunity to convert your fixed operating costs into a variable that can be quickly scaled up or down.

How much would your business procedures, bottom line and team spirit improve if you passed all the bother of stock management to a reliable external partner?

Team up with NTG and rest assured that your company will neatly sidestep planning, day-to-day operations and other troublesome issues.

Facilities with room to expand

Our 8,500 square metre storage facility is systematically furnished with plenty of shelving and floor space for block stacking.

Our professionalism and security standards are top class, and we take excellent care of goods in compliance with our ISO 9001 and 14001 certifications.

From storage to stock control

Your NTG team will ensure an efficient and smooth process from start, when the goods arrive at our storage facility, to finish, when they are delivered to the end recipient. And your storage solution will be tailored to suit your specific needs:

- **Container unloading**
- **Stock control and management (FIFO)**
- **Pick and Pack**
- **Packing of displays**
- **Labelling**
- **Repacking, multi-packing, shrink wrapping**
- **Quality control**
- **Sampling**
- **Returns management**
- **Other Value Added Services**

Goods are scanned throughout the entire process to ensure traceability – from when the goods arrive until they leave our storage facility again. All customers have online access to our WMS system (Axacon).

How NTG provides top-class logistics and transport

The NTG Group consists of more than 80 companies with top expertise in every area of logistics and transport. You can therefore choose from the best possible solutions across all sectors. We are owned by our employees – which clearly shows in the enthusiasm and care we invest personally in everything we do.

Book a meeting and optimise your business decisions

We are ready to smoothly transition your company to our external storage facility with a clear overview of the financial benefits, process and not least final implementation.

Would you prefer a meeting by phone, online, at your premises, or at one of our offices, where we can also include a tour of our storage facility?

For further information, please contact Managing Director & Partner Jesper Kongsted at +45 2099 5617 or jko@ntglogistics.dk.
